# Jamie Bykov-Brett

AI Transformation Strategist • TEDx Speaker • Futurist • Educator

TEDx Speaker • CIPD Level 7 (Distinction) • Perplexity Institute Fellow • Engatica Top 200 Innovator

Jamie Bykov-Brett is an AI Transformation Strategist who has spent five years bridging the gap between AI tooling and real adoption in organisations. From designing national STEM strategies at The Prince's Trust to leading global talent development at the Open Society Foundations, and delivering AI upskilling programmes with a 9.7/10 NPS score, Jamie brings practical implementation experience that cuts through the theory. As founder of Bykov-Brett Enterprises and co-founder of the Executive AI Institute, he works with leadership teams to turn AI intent into measurable impact.
